

## Good Painting

We are painters.  
We paint what we see.  
We paint what is good!

Good painting is strange.  
Good painting conveys itself.  
Bad painting is not good painting.  
Bad painting transports nothing.

Bad painting tells us nothing, doesn't touch us.  
Bad painting is like the Titanic, pretty down.  
We believe in painting.  
Painting is fly.

Good painting is easy.  
Good painting smells good.  
Bad painting is hard.  
Bad painting has a big nose.

Good painting is delicious.  
Good painting is stable like a steel beam.  
Bad painting leaves us cold as a refrigerator.  
Bad painting is boring like your life.

Bad painting wants technology, but can't do it.  
Bad painting is unintentionally cheesy.  
Bad painting has too much claim.  
Bad painting is uninterestingly colourful.

Bad painting is painted uninterestingly.  
Bad painting is decoration.  
Bad painting thinks too much.  
Bad painting is transparent.

We want to feel good painting!  
Good painting is intuitively clever.  
Good painting is mysterious.  
Good painting surprises.

We think about good painting.  
We don't remember bad paintings.  
Painting is life  
Painting is infinite.  
Painting is like a tree, deeply rooted in us.

Painting is a killer,  
we are the judge.  
Painting is Adidas,  
we are the stripes.  
Painting is the matjes,  
we are the onions.

Good Painting: The G stands for god mode.  
We were born painters.  
We create and we destroy.  
Good painting is godlike.
